3. We won't provide any refund of Tokens or Virtual Currencies once SLV tokens have been sent to your address.

Security

1 Your Security. You will implement reasonable and appropriate measures designed to secure access to (i) any device associated with the email address associated with your account, (ii) private keys required to access any relevant Ethereum address or SLV, and

(iii) your passphrase, password and any other login or identifying credentials. In the event that you are no longer in possession of any device associated with your account or are not able to provide your login or identifying credentials, we may, in our sole discretion, and only if we are able, grant access to your account to any party providing additional credentials to us. We explicitly reserve the right to determine the additional credentials required, which may include, without limitation, a sworn, notarized statement of identity.

2 Your Information. We may use aggregate statistical information about your activity, including without limitation your activity on the SLVone Site and logins to various websites, for marketing or any other purpose in our sole discretion. However, we will not release your personally-identifying information to any third party without your consent, except as set forth herein.

Your Responsibilities

1 Phishing. You will be responsible for always checking that you are entering <https://slv.one/> and not any other website, we'll can not refund any loss incurred on this.

2 Security and Backup. You are responsible for properly configuring any software in connection with your access to or use of SLVone. SLVone log-in credentials are

for your internal use only and you may not sell, transfer or sublicense them to any other entity or person, except that you may disclose your credentials to your agents and subcontractors or employees performing work on your behalf.

3 End User Violations. You will be deemed to have taken any action that you permit, assist or facilitate any person or entity to take related to this Agreement. You are responsible for End Users' donation and use of SLV. You will ensure that all End Users comply with your obligations under this Agreement and that the terms of your agreement with each End User are consistent with this Agreement.

Risk disclosure

1 Risks: you understand that SLVone, blockchain technology, Ethereum platform, SLV and decentralized hosting platforms are new and untested technologies that can be outside of SLVone control and adverse changes in market forces or technology, broadly construed, will excuse SLVone performance under this agreement. In particular, and in addition to the terms of this document, you assume all risk of loss resulting from, concerning or associated with other risks explained here.

2 SLV is not an investment. There is no guarantee – indeed there is no reason to believe – that the SLV you purchased will increase in value. It may – and probably will at some point – decrease in value.

3 Risks Associated with the protocol, SLV and the SLVone network are based upon the Ethereum protocol. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the SLVone network or SLV to malfunction or function in an unexpected or unintended manner. SLV, the native unit of account of the SLVone Network may itself lose value in ways similar to Ethereum, and also other ways.

4 Risks Associated with User Credentials. Any third party that gains access to the Donator login credentials or private keys may be able to dispose of the User SLV. To minimize this risk, the Donator should guard against unauthorized access to their electronic devices.

5 Risk of Unfavorable Regulatory Action in One or More Jurisdictions. Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the SLVone network and SLV could be

impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital currencies and tokens like SLV, which could impede or limit the functioning of SLVone.

6 Risk of Theft and Hacking. Hackers or other groups or organizations may attempt to interfere with the SLVone or the availability of SLV in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.
